CHAUTAUQUA STARTS HERE NEXT MONDAY

Excellent Week's Entertainment
—Grand—Good Speakers and Musicians
for Every Day—Get Your Season
Tickets Early

Next Monday afternoon at three o'clock the Chautauqua opens in front of a week's engagement. The opening programme will be a treat by the Ward Waters Co., in which many new features will be introduced. Joseph Marks, a young Canadian violinist, who holds the coveted I.A.B. degree, will also take part in this programme. In the evening the same company will furnish a new program, after which Captain Norman Allan Smith will give a lecture on "Problems Confronting John Bull and Uncle Sam." On Tuesday the Windsor Entertainers' made up of four talented young men, who will introduce new instruments and new selections, will furnish the musical programme, while in the evening, Hon. Chas. F. M. of New Zealand, will lecture on "Social Reform."

Wednesday is advertised as music day. At both afternoon and evening entertainments the Miller-Wiloughby Lacie Orchestra, made up of six young ladies, will entertain in the afternoon. Meriton Haines will speak on "Russia at the Cross Roads."

There will be nothing on the afternoon of Thursday. This is limited to allow all to get ready for the big play in the evening put on by the New York Players. The title of the play is "It Pays to Advertise."

Friday and Saturday's programme will appear in our next issue. Representatives of the guarantors are now out selling season tickets. It will pay to buy one of these, as by so doing you will be able to take in all the afternoon and evening entertainments at a great saving to your pocket early and avoid confusion on the opening day.

Athletic Association Making Good Progress

The committee appointed to look after the preliminary arrangements in connection with the Athletic Association which was recently organized under the auspices of the Presbyterian church, report that they are making good progress and that enthusiasm in the organization is growing.

Lots for the playing of the outdoor sports already arranged for have been secured. These will be put in one at a time and it is expected that a start will be made with tennis and cricket at the end of this week or early next week. Equipment for the sports has been ordered and will be put in place as soon as possible.

An invitation is extended to all the young people connected in any way with the church to join this association.

Railway Wages in U.S. Greatly Reduced

An estimated four hundred million dollars will be slashed from the railway wage bill of the United States when an order cutting wages 12 per cent to be handed down today by the United States railway labor board, becomes effective July 1. The order affects members of 31 labor organizations employed on 140 railroads.

While the decrease is specifically applied only to the roads whose cases have been heard by the board, the decision says it may be later applied to any other road making a hearing under the provisions of the Esch-Cummins Transportation act.

Percentage of reductions computed by members of the board gave the average of twelve per cent, and the same source estimated the annual reduction in wages at approximately \$400,000,000. The decision grants reductions from five to thirteen cents an hour, or from five to ten per cent, and in the case of section laborers, and completely wipes out the increase granted that class of employees by the 600,000,000 wage award of July 20, 1920.

When the rates of wages went into effect in the United States last July the Canadian railroad rates were also affected. Now that the reduction is being made it is only fair to assume that Canada will again fall in line.

Important Meeting of Chautauqua Guarantors

A meeting of Chautauqua guarantors is called for tomorrow (Friday) evening, to discuss important matters in connection with the opening of the engagement next week.

The meeting will be held at the Review office, and will commence promptly at 8 o'clock. Be sure to be on hand.

Box Springs Annual Picnic on July 1st

Arrangements are already being made by the Box Springs U.F.A. for their annual picnic to be held on the old grounds on Dominion Day, Friday, July 1st.

This picnic is now being looked upon by both town and country people as one of the events of the season, as each year something new in the line of sport and amusement is introduced. The picnic is to be no exception, as we are assured the picnic will be bigger and better than ever. Keep the date open and watch for further particulars.

Annual School Sports Here Next Friday

Tomorrow, June 3, an interesting and varied programme of sports will be conducted on the school grounds for the benefit of the children and the delight of the townspeople who can arrange to attend.

Commencing at 9:30 a.m. a massed chorus will be rendered, followed by a parade and grand march, after which a baseball match will be put on by the boys.

In the afternoon at 2 o'clock the racing, jumping and various other athletic events will be conducted, terminating in a grand basketball contest between teams of senior girls.

It is expected that during the day, through the co-operation of the Dominion Canadians, some of the best games of volleyball will be presented under the supervision of Miss Herald.

Chautauqua is also presenting the badge to the successful contestants in the various events.

Come out with the children and have a good time.

Arranging For Big Rummage Sale Here

At the last meeting of the Parent-Teachers' Association it was decided to hold a Rummage Sale as a means of securing funds to carry on the work of the association. The committee appointed to make arrangements for this sale are anxious, therefore, to get in communication with all those in town who have anything to contribute to this sale.

With the house cleaning season over, this should be a good time for such a sale, as in most homes articles which one has no use may have been located. These are the things wanted for the sale.

Any who have discovered any articles of this nature should notify Mr. Laid, president, or Mrs. Sten, secretary of the association, at a reasonable time as to the date of this sale will be announced later.

Alberta Makes Separate Bid For Resources

Believing that, since the provincial government has now adopted a policy of guaranteeing bonds of irrigation and drainage districts, Alberta has a better claim now to the ownership of its resources than the other western provinces. Premier Stewart is proceeding to negotiate with the Dominion government for the return of the resources entirely separate from the other provincial governments of the prairies which have hitherto been acting in conjunction in this matter.

Alberta's coal and iron resources have gained greatly in weight as a result of the new irrigation policy under which it is possible that in the course of a few years irrigation projects will be guaranteed to an extent of \$100,000,000. The urgency of the development of Alberta's coal and iron resources is a weighty argument for the province.

Oil interest in Southern Alberta is keen and developments of an extensive nature are expected this summer.

Why You Should Cast a Vote For Nelson Spencer

(Supplied from Col. Spencer's Committee Room).

BECAUSE he is a man who has been tried and has not found wanting. He is known to be a man possessed of ability, energy and integrity, who uses all for the benefit of this district and the country as a whole.

BECAUSE he supports a government which stands for nation building as opposed to the forces that are trying to tear down and wreck.

BECAUSE class movements with their class consciousness would lead to group government, which would mean political chaos with corresponding financial and commercial disturbance if not disaster.

BECAUSE it surely is a time for us all to keep our heads and proceed with utmost caution in our national affairs. It is like-wise the worst of all possible times to consider departing from traditional trade and financial policies which have successfully stood the test of time.

BECAUSE if you are a laboring man, whether connected with any branch of organized labor or not, the present government is the first and only government in Canada that went to the ranks of labor to choose its Minister of Labor, and in order to give permanence and stability to that representative they also made him a Senator. And further because at the convention of the party of which Mr. Spencer's opponent is a supporter, the leaders of that party refused to consider the needs of the Labor party as presented to them by representatives of labor, and refused to affiliate with them.

BECAUSE as a citizen of this country, in which all classes and conditions of trade, commerce, enterprise and development are represented you cannot afford to hand the government of such a country over to any one particular class.

BECAUSE the policy advocated by Mr. Spencer's opponent would practically mean wiping out most of the large revenue derived through the Customs tariff and nothing is offered in substitution except vague suggestions that we should get what is necessary from Income Tax, which, in the minds of those of our people who come forward as good citizens and pay that tax as high as it can safely be put.

BECAUSE you must know that the reason the Canadian dollar is now only worth from 85c to 88c in the United States is because we are buying more goods from that country than we are selling to them, and that under the drastic tariff reduction and free trade policies as advocated by Mr. Spencer's opponent it is to be made much easier for the American to sell goods to us, and consequently, the only result would be that our good Canadian dollar would be at a still greater discount.

BECAUSE in 1915 the Non-partisan League captured official control of the State of North Dakota. At that time it was one of the wealthiest and most prosperous States in the republic. Then began the practical application of the economic political group action. It was identical with that now urged in Western Canada by Mr. Spencer's opponent, who favors class legislation or government by occupational groups.

Today North Dakota is bankrupt or finds her finances in such a state that years will be required of sound administration to undo the mischief.

BECAUSE the financiers of the world are just beginning to realize the tremendous extent of our natural resources, and the splendid advantages we have for manufacturing development by reason of our magnificent water powers; and, unless checked by immature statecraft we should see a great development of Canada, which will be of benefit to the whole people. All we have to do is to keep steady, and to be sane in our policies. We should not let the extremists and class agitators carry us away with their half-baked, half-digested theories. In these troublesome times, with such a splendid prospect ahead of us, we should cling fast to that which we know, cling fast to same, orderly state government for all classes, a government based upon the best Anglo-Saxon practice and not allow ourselves to get tangled up in class movements based upon class consciousness, which can only lead to chaos, if not disaster.

PUBLIC MEETING OF NELSON SPENCER GOVERNMENT CANDIDATE IN EMPRESS THEATRE MEDICINE HAT TONIGHT (THURSDAY)

The meeting will be addressed by the CANDIDATE and
C. F. JAMESON, of Lethbridge.

ALL ARE INVITED.

G.W.V.A. Ask For Increased Pensions

Great War Veterans' Association are at present agitating for an increase in the pension rates on the grounds that the cost of living is not coming down, the extent claimed by them. According to officers of the association the cost of the absolutely essential items, which must be provided for day by day in every household in order to exist, food, fuel, lighting and rent does not, on the aggregate, show any indication of a permanent decrease. On the contrary, they claim, that a careful analysis of the information provided on the cost of living by the Department of Labor, and by other reliable sources, shows an actual increase in March of this year over the corresponding month of 1920 of approximately three (3) per cent.

While they readily admitted that certain articles of food have declined in price considerably, any gain in this direction has been offset by increases in rental, and higher prices for fuel and lighting. Independent reports on the cost of various articles in some of the larger cities of the Dominion indicate that increases will become effective on May 1st of from fifteen to twenty-five per cent.

More Trouble is Expected in Ireland

After a period of comparative activity in the necessity of spring farm work, county Cork, in Ireland, is making extensive rapid preparation for the most serious clash with the armed forces of the crown that has yet stained Irish history.

The Republican army is rapidly multiplying and the only possible interpretation of the activities is their intention to take the field in open fight against the crown, and make a desperate bid at setting up a Republican government. The comparison of rebel units is proceeding in the rugged and almost inaccessible parts of Conn and Kerry, and it is estimated that at least one thousand men are concentrated in the mountainous parts of the hills near Lake Clon. A similar number of the lonely Galician Peninsula are inaccessible to crown forces save by the steep, bridges having been destroyed.

The significance of this news, which reached London, is emphasized by rumors that wireless messages in the German language have been intercepted from a vessel lying off the coast of Ireland and believed to have come from the United States. At the same time statements are issued regarding the necessity of increasing British troops in Ireland. De Valera's claim, published in the New York Herald and cable to the news declaring there will be "increased fighting" in Ireland has added to the feeling of uneasiness which is rapidly approaching alarm as to the course which affairs in Ireland have now taken.

British Coal Strike Is Still Unsettled

The coal strike in England is still unsettled. Latest reports state that indications point to a general rejection of the government's new proposals in connection with the coal settlement. The miners in South Wales, Scotland, Derbyshire, Yorkshire and other large coal fields, have already declined to accept the proposals.

In a statement, however, Frank Hoopes, secretary of the miners' union, virtually offers to drop the pole. The miners have presented a settlement, provided the owners are willing to offer a higher wage standard. He suggests 90 per cent above 1914 as the new standard, which the owners are not likely to agree.

German Indemnity Will Benefit Canada

When the German indemnity is paid to France, the lumber industry in Canada will be greatly benefited, according to the Hon. Philippe Paré, member of the Quebec Legislative Council, who has just returned from an extensive tour in Germany. He states that railways, bridges and roads in the devastated area have been repaired, but that there is a great lack of houses owing to the financial plight of France.

People are already beginning to ask what has become of Hatfield the ram maker.

JUST ONE MORE OPPORTUNITY TO REGISTER

Those Who Failed to Register Last Week must get it done at this office. See P. Baird Next Week

According to the Dominion Electrician Act, those who neglected to register last week, in order that they might have a vote on the approaching by-election, will have one more chance to do so. Mr. F. Baird, barrister, of this town, has been appointed revising officer, and for the purpose of adding to the voters list the names of those who failed to register at the proper time, he will be at his office on Broadway, Monday, June 6th, and for the five days following, from 10 o'clock to 6 o'clock, will be open to the public. After that time, when all such may be added to the list. This applies only to residents of the town. Registration for the rural districts is separate from the town, and takes place later.

If there are any qualified voters, who have failed to register last week, they should see Mr. Baird next week. Lists of those who did register are now posted in the post office, at the town hall and in the courts. Look over one of these and make sure you are on. If you are not there see the revising officer, Mr. Baird.

Two Bye-Elections Held Last Week

In the two federal bye-elections held last Saturday two candidates representing the farmers' party were hopelessly defeated.

In Yamaska County, Quebec, the Liberal won by a majority of 1068 over the government candidate, while the farmer only received 310 votes.

In York-Sudbury, N.B., the government candidate defeated the farmer candidate by over 1,000 majority.

Important Meeting Of British Premiers

The Imperial premiers, together with representatives of India, are assembling in London for the second session of the second session of the Imperial Conference. The first night in June for what is considered the most important meeting in the history of the British Empire will be for discussion will include the narrow defences of the empire, renewal of the Anglo-Japanese treaty, the Imperial foreign policy and the arrangements for a subsequent Imperial conference to settle the lines of policy as between the member countries and the dominions, and the representation of the dominions in the Imperial parliament.

GERMANY MAKES FIRST PAYMENT OF DEBT

If the train carrying the special courier of the German government arrives at Paris on schedule time, the reparations commission will come into possession of equivalent of \$40,000,000 gold marks, the balance due from Germany on the first bill payment.

To Run Excursion Toronto-T. Norman

A round trip excursion from Toronto to Port Norman, in the Mackenzie river all night in fourteen days, \$1,000 for the trip, is said to be contemplated by a company which proposes to build six or eight big naval vessels, capable of carrying 12 passengers each, as well as about 3,000 pounds freight. The idea is to travel between Toronto and Timbuctoo by train, this consumption of the days of the 14 for the round trip, and by airplane 1,780 miles from Edmonton to Port Norman, 26 hours each way of the 1,780 miles.

During the month of April, 2,358 United States soldiers arrived in Western Canada, bringing with them goods to the value of \$147,268, and ready money to the extent of \$896,154.

The apple crop in British Columbia this year is expected to be about fifty per cent larger than last year, partly due to increased acreage and in part to a better system of irrigation. The heavy crop will also be much heavier.

Rev. C. W. Gordon (Haleth Canon), was elected Moderator of the Presbyterian church of Canada.

DEEP, HOLLOW COUGHS
ARE MIGHTY DANGEROUS

That same cough is everywhere you go, deep and hollow, hoarse, because of consumption. First it's a cold, next came Catarrh, finally decreased then the trouble was very serious. Never neglect a cough, not even a little one. Next took a bottle of Dr. Williams' Pink Pills for Pale People. It really helped for coughs, colds, bronchitis, irritation and Catarrhal trouble. Sold everywhere. Two months' treatment \$1.00, small size, 50c.

The House On
Mercy Street

By Florence Kerigan

Miss Angela set her finger on a tiny little bell, and at once the throng of boys who were whooping madly up and down the hall and out of the rooms of the house on Mercy Street, came together in the living room and settled down to listen to the afternoon story.

They just adored Miss Angela. From the time she rented the little house and turned it into a clubhouse for the rough, tough, dirty little boys of the neighborhood, they loved her. They exhibited her to their rough, tough, dirty friends with pride and gradually became less rough, and less tough, and washed their faces now and then.

On a particular afternoon, when the soft air blew in the open window and made her fair hair stand out from her head like a misty, golden halo, and shook the faint perfume out of the bowl of lilacs on the table, she announced that she was going to tell them a story of knights and castles and the spring. She settled herself in the seat of honor, and swept the circle of faces with her brown eyes which Abie Rahabovich had called "just like these here, morn, panny flowers, ain't they?"—brown eyes which smiled at them, all from Able to the mysterious, well-dressed, perfect-looking Jack who came in every day to play.

Then, very simply and dramatically she told the story of Sir Galahad and the Holy Grail, and all her hearers listened spellbound. And when it came to an end, they sat out for a moment, then clamored for another.

Next, she told them a rollicking Irish tale that made them laugh and followed it with others until a factory whistle told her it was five o'clock and closing time for the clubhouse.

They found their hats and tramped out, but Miss Angela remained, and her shoulders dropped with sudden sadness.

That morning she had received a letter saying that she would have to leave the dear little clubhouse on Mercy Street, as the landlord wanted it for one of his friends. She had at once cancelled up several influential men and "tried to interest them in a campaign for establishing a community clubhouse to carry on the work begun, but without result.

One of the men, John Davenport, told her frankly that he was decidedly against such work—that the poor of the city could rise if they wished, without such waste of money. Still, with a heavy heart Miss Angela fought the thought of giving up her boys.

On Friday afternoon the boys were grouped about the piano singing a few favorite songs when a man's figure stopped in the doorway.

Miss Angela recognized the clear-cut, rather stern face of Mr. Davenport, and wondered what had brought him there. At the same instant Jack cried, "Did!"

"Jack, what are you doing here?" The man's voice was well under control, but Miss Angela could see that he was very angry.

Jack stepped out bravely. "Did, I'm sorry it had to be this way—but

W. N. U. 1369

Hannah wouldn't let me come when I asked her. And they were having such fun! I get so tired playing by myself. Dad! Here we have the greatest dinsel. Mickey Mulligan—his Mickey over there, has a sister and two rabbits and some white mice, and his father sings the funniest songs. And Abie Rahabovich lives at a jeweler's store and his father let me look at some stones just like those of Mother's."

"Why, it's preposterous!" gasped Mr. Davenport. "I'm surprised at you, Jack. You, with you have been playing with dirty rags!"

Jack squared his shoulders. "I haven't a thing. I haven't a mother to sing to me or smooth my hair or make me little cakes like Jimmy Casey's mother does, and I have no rabbits or cats or even a puppy—why, I've never even had a mouse or a mouse! And I can't sing like Romolo Galschie, or point like Old Nels. I've got a lot of old money that won't buy the things I want!" His lip quivered suddenly. "I have them all as much as I want—and I never loved anybody before."

"Old money that won't buy what I want!" The words struck deep, and when he thought of it, sweet white money had not been able to buy the happiness that money had not brought him—the mansion which held everything but love and joy.

Mickey Mulligan stepped to Jack's side. "If you please, he's a good guy even if he is a swell, and we like him, ever."

"Suppose you go outside and play," in a softer tone. "Miss Sheridan, will you tell me about this business?"

Miss Angela drew up a chair for her guest, and told him the whole story of the club and what she tried to make it stand for and the love of it made her eloquent. Her enthusiasm was infectious and at the end of an hour he was ready to play with her for a larger club that would broaden into athletic activities. She shook her head, sadly.

"We're not all millionaires, Mr. Davenport."

"Don't you understand? I want to do it with you. You must count on it. Why, I wouldn't take a million dollars for the way these boys treat my son and the happiness they and I have given him. So, I'll see an architect tomorrow and we'll have a grand clubhouse right in this neighborhood!"

In spite of her protestations, he carried out his purpose and formed a habit of dropping in during their play hour and showing her the latest plans and talking over new things he had thought of.

Then, one day, he brought some new plans for her inspection. "Don't you think," he said, "that I've got a better idea, laying them before her, that you could make a home out of one of these for you and her and a lovely little boy that never loved anyone before?"

Miss Angela promptly became very fussy and confused, but her answer must have been satisfactory, for some months later, the boys all met for a feast of ice-cream and cake on a very joyous occasion. And they presented her with a solid silver spoon bought with their own savings from Abie Rahabovich's father who was a jeweler.

Lord Fisher's
"Light Cruisers"

Chancellor Did Not Specify Size of Light Craft.

A characteristic story of the late Lord Fisher, and his capacity for getting his ideas carried out while, at the Admiralty during the war, was told by Vice-Admiral Sir Frederick Tudor at a meeting of the Institution of Naval Architects.

One day early in the struggle, when it was believed that the British did not last very long, Admiral Tudor said Lord Fisher came into his room and told him he had just had a long conversation with the Chancellor of the Exchequer, who had agreed to the building of light craft, up to light cruisers, to any extent.

The Chancellor of the Exchequer had not said how big the light cruisers were to be, so Lord Fisher said, "We will build two whoppers with 15-in. guns, big enough to knock any German 'light cruiser' out of the sea. This was the origin of the Furioses, the Obolons and other ships of that class."

Another Men Breaks Record.

He was owned by T. N. Mitchell, of Byron Centre, Mich., laid double-yolked eggs every day for three weeks and then produced an egg that weighed six ounces and measured nine and five-eighths inches around the long way and one-half inch around the centre. It contained two yolks besides perfect normal sized egg.

HAS NO
PAIN NOW

What 'Lydia E. Pinkham's Vegetable Compound Did for Mrs. Baker and for Mrs. Kiever.

Vancouver, B.C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about with ease and feel as well as I ever did. A nurse advised me to take the Compound. It seems like Heaven to be relieved of all sorts of pain. I am, H. W. BAKER, 884 10th Ave. West, Vancouver, B.C."

Albert Co., N.C.—"I have taken Lydia E. Pinkham's medicine and they have done me a lot of good. Since then I have been able to do my housework and feel as well as I ever did. I am, MRS. W. BAKER, 884 10th Ave. West, Vancouver, B.C."

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends and neighbors is because they are so happy. Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their pains and troubles, they are now able to do their housework and feel as well as they ever did. I am, MRS. W. BAKER, 884 10th Ave. West, Vancouver, B.C."

If there are any complications you wish to consult with a physician, write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Care Of The
Bedroom

BY LORETTA C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Every detail of housekeeping should be attended from a health standpoint. It is well for the woman to consider the bedroom as a place where she should be as comfortable as possible.

Single beds are coming more and more into vogue. Health authorities tell us that it is more conducive to both health and comfort for each person to have an individual bed. White enameled bed frames are always a wise choice if one's money is limited. But, no matter what the frame, the bed must be properly sprung and the mattress should be changed every few years.

The ticking should be laundered and the hair or other material it contains should be thoroughly and scientifically cleaned.

Every mattress should be protected not only from soil or surface dirt, but it should be protected so that it may not absorb and hold perspiration or other body excretions. To protect it from surface dirt, make or purchase mattress covers of unbleached muslin. These are usually provided with buttons and buttonholes so that they may be fastened after being slipped over the mattress. Rubber sheeting or oiled silk are not correlative in price and go a long way toward preventing the absorption of body excretions.

After sheets should be washed and ironed, and not put necessarily be folded. Try to air each one of the bed coverings for at least an hour each day. Arrange them so that the air may circulate through them—damp, rainy days excepted.

German Prison Camps.

The Leipzig trial of German offenders may not bring many convictions or heavy penalties, but the evidence taken in London in respect to prison camps shows that the prisoners are serious. Accounts given by former prisoners provide indignation, but they confirm the statements of Canadian prisoners who have passed through some of these camps—Vancouver Province.

For 16 centuries the little republic of San Marino has maintained its independence, although Italy entirely surrounds it.

Liners Bring
Many Passengers

Those Travelling Third Class Were 100 Per Cent. British Born.

The opening of the 1921 passenger season in the port of Montreal was marked by a movement of passengers that would be heavy at any period of the year, no less than four liners—the "Minotours," "Canada," and "Metagama" from Liverpool, and the "Canadian Fishers" from the West Indies, arriving on the same day. The highest number of the passengers carried in the third class quarters, where were almost 100 per cent. British born, was the most noticeable feature of the capacity lists.

One Can Be
Smelted in Canada

Will Save Dominion Millions of Dollars Annually.

An association of the Honorary Advisory Council of Scientific and Industrial Research investigating the question of the utilization of low grade iron in Canada has reported to the council, and it is now regarded as highly probable that the vast deposits of low grade magnetite iron ore can be successfully smelted in Canada on a commercial scale. The value of iron ores, iron and steel imported into Canada exceeds \$150,000,000 annually, and 94 per cent. of the iron ore smelted in Canada is imported. If the research is successful the country feels that a saving of millions of dollars annually to Canada will be effected.

Why The Complaint.

Leaders of the Welsh miners protest against the use of troops which they term violence. Anything more violent than threatening the country with starvation by tying up all trains and stopping industries is hard to imagine.

Worm as Thin as Straw.

Samoa boasts a swarm of enormous slenderness, like a fine straw which is eaten like the oyster, both raw and cooked.

The planet Venus moves around the sun at an average speed of 22 miles per second.

Samoa boasts a swarm of enormous slenderness, like a fine straw which is eaten like the oyster, both raw and cooked.

Old Time Engineer At
Age Of 76 Goes Back
To Work On C.N.R.R.

"Although I am now past seventy-six years of age I am working every day, for Truher has put me back on the job after I had given up all work and didn't think I could ever get well," recently said C. L. Shinnick, 530 Maryland St., Winnipeg.

"There is one thing I hope I never have again," he went on, "that is rheumatism. It simply had the best of me and I was practically helpless. I had started four years before and I was so crippled up I couldn't do a

lick of work. My knees were actually as stiff as boards and of mornings I had an awful time trying to get up, with the pains nearly killing me. My appetite went back to me and I got to I didn't want to eat a thing. I didn't know what a good night's rest meant and I was as weak as a baby."

"But it's all over with now, thank goodness. Tanlac has simply made a clean sweep of all my troubles and I feel like a man made all over again. Those pains have all disappeared and so has that stiffness and I am eating hearty and sleeping fine like I used to years ago. I take pleasure in speaking a good word for Tanlac. It has done a great deal of good for me."

Farmers Plant Treated Seed

Electrication Claimed to Increase Yield and Check Disease.

Seed treated by a new process of seed electrication, a method which it is claimed will increase the yield, check the spread of fungal diseases and improve the quality, will be shown this year by many of the leading farmers in Southern Alberta. A plant the treating of seed has been established at Carmangay, Alta., and already its capacity is taxed to such an extent that an enlargement will be made immediately.

It's easier for some men to make love than it is for them to make a living.

World Happenings Briefly Told

Four persons, one of them a woman, were killed in County Galway by men lying in ambush at Ballinacorney.

The Earl of Reading, viceroy of India, had a long interview with Mahadua Karamchand Gandhi, leader of the Indian Nationalists at Simla, India.

William Fernie, aged 70, after whom the city of Fernie was named, and who was the original discoverer of coal in that district, died there recently.

The Québec Board of Trade, on the invitation of Senator L'Esperance, has decided to send a representative to attend the Senate Committee investigation of the grain trade.

The large Minister of the Blodgett Line, which was sunk with the loss of six lives, was located by the Vennish Coastguard lying in 36 feet of water in Whitefish Bay.

Predictions that the Sinn Féin would win nearly half the 52 seats in the Northern Irish, or Ulster Parliament, were made by Barry Ennis, acting lord mayor of Cork, who is visiting Paris.

Scarcely had the funeral of Francis Mierneke left his home in Windsor when six men forced the front door and stole forty cases of liquor. They escaped with it across the river to Detroit.

Charles Jourdain, former allied high commissioner at Athens and later minister to Vatican, has accepted conditionally the post of diplomatic representative of France at the Vatican. He will serve at least six months.

A communist rising has occurred at Cremona, Italy, according to a Milan despatch to the London Times. Troops have been called out and have employed artillery against the insurgents. Numerous casualties are reported.

John Doughty, sentenced to the Portsmouth prison six years for theft of \$105,000 of Victoria bonds, the property of Ambrose J. Small, the missing theatre man of Toronto, former employer of Doughty, has been committed to the penal institution at Kingston.

Applied After Shaving

Keeps the Skin Soft and Smooth

MANY men suffer from the irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are avoided.

50 cents a box, all dealers or by mail, Boston & Co., Ltd., Toronto.

Dr. Chase's Ointment can be used in cases for burn building, making a concrete as strong, but 60 per cent. lighter, than the ordinary kind.

A WOMAN'S HEALTH NEEDS GREAT CARE

When the Blood Becomes Watery a Breakdown Follows.

Every woman's health is dependent upon the condition of her blood. How many women suffer with head-aches, dizziness, back-ache, general weakness, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness? Of course all these symptoms are the result of a watery blood, and the more watery the blood, the more serious the condition of the blood, and the more serious the condition of the blood, the more serious the condition of the body.

It is foolish to expect the teeth and mouth to need attention by carelessness. Even with the best care that we know how to give, there may be decay of the teeth and infection of the gums, but by careful brushing as a habit, and early treatment of the few teeth that are attacked by bacteria, the mouth may be kept healthy and serviceable as long as the rest of the body.

In addition to proper brushing of the teeth, the diet is of great importance. We commonly think of diet as a treatment for digestive disturbances only.

The mouth is the front door of the stomach and every decayed tooth, and every inflamed spot on the gums, is really a digestive disturbance. No part of the mouth, stomach, or intestines can be diseased without reflecting to some extent, the rest of the tract.

It is possible to so arrange the diet of a child that the development and retention of the teeth is reasonably assured, and, at the same time, the digestion and general health are benefited.

The one food in the world that is exactly suited to an infant's mother's milk. The child of a mother who is able to nurse them normally have a big lead in the race of life.

When the first baby teeth come in, there is a demand for something more than liquid food. The little teeth must chew, and the gums need pressure.

From seven to nine months of age, baby should have a little taste with butter twice each day. After nine months, rakes and firm mild puddings, a little boiled fish and well cooked chicken come next. Do not forget that butter fat is absolutely necessary for growth.

The proper diet early, has been found very effective in the cause of good teeth.

"Your Teeth"

By Res. Proctor McGrier, M.D., D.D.S., Editor of Oral Hygiene.

DIET.

Copyright, 1921, by Res. Proctor McGrier.

When a raw recruit has been in the service long enough to learn that the shells and bullets that miss him do not hurt, he becomes a veteran. When he learns by experience that the bullets that strike him do hurt, he becomes a casualty.

The best way to have our teeth become veterans in the service of good health is to take care of them.

It is foolish to expect the teeth and mouth to need attention by carelessness. Even with the best care that we know how to give, there may be decay of the teeth and infection of the gums, but by careful brushing as a habit, and early treatment of the few teeth that are attacked by bacteria, the mouth may be kept healthy and serviceable as long as the rest of the body.

THURSDAY, JUNE 2, 1924.

HELP THE CHAUTAUQUA.

As the Chautauqua opens up next Monday for a week's engagement in Redcliff we would draw the attention of the guarantors to the fact that the success of this event depends largely on the efforts they put forth to make it so. There are still quite a number of these guarantors in town and each should be prepared to do his or her part in carrying out the preliminary work which, as guarantors, they are expected to do. It is unfair and unreasonable to leave this work to a few of the more willing ones. As a matter of fact it cannot be done successfully nor can the best results be obtained if this work is left to the few. The result of neglecting to do your part means additional obligations on all concerned when it comes to settling up time.

At the present time the most pressing need is to get the season tickets disposed of. It is the duty of every guarantor to do his and her share in this connection. L. S. Kearney has been selected as treasurer and is looking after the distribution of the tickets. He will be at the Review office for this purpose every afternoon this week. If you are a guarantor call around and get your allotment.

Programmes for the Chautauqua are now in circulation and after looking it over you are sure that all will be convinced a good week's entertainment is in store for the people of Redcliff and district. For that reason we have no hesitation in bespeaking for the guarantors the hearty support and co-operation of the citizens generally.

UNNECESSARY ADVICE

In its issue of last Monday the Calgary Albertan undertakes to give the Medicine Hat News a certain lecture, and to tell it what it should and should not do. The Albertan asks: "What would McKenzie King do if he were editing the News at the present time?" The Albertan might have gone a step farther and asked its editor what McKenzie King would have done if he had been a representative of one of the Calgary seats during the last session of the provincial legislature?

The Albertan appears to have a very grandmotherly eye on this part of the province at the present time. Possibly this is not to be wondered at since it proved a very remunerative section for the Albertan's football lottery. By the way we wonder if McKenzie King bought any of the Albertan's football coupons.

The interference of the Albertan in affairs so far from home is entirely uncalled for and unnecessary.

RELIGIOUS COMITY IN CANADA.

Under the above heading an item appeared in the editorial columns of the Minneapolis "Tribune." As the article is of especial interest to Redcliff and its people and as the circumstance which prompted it was taken from the Redcliff Review, we publish it in full as follows:

In the Redcliff, Alberta, Review, for May 6 we find the following under the head of "Church Notices":

CATHOLIC CHURCH.

For the future mass will be held in the Presbyterian church the second and fourth Sundays of each month, at 8 o'clock.

One definition of news is "the unusual." Under that description the above paragraph is news. But it is more than that; it is an indication of Christian tolerance and good will and co-operation that is so rare, more's the pity, that it is deserving of more than passing notice. It may be that the churches of Canada have made more progress toward co-operation instead of competition than in the States. There was a well-advanced movement throughout the Dominion a short time ago toward union among several of the leading Protestant bodies. That it has progressed to the point of actual merging of the parts into one whole we have not learned. But there is evidently an era of good feeling there which ought to make for the promotion of religious interest and effort. This in stance of the accommodation of a Catholic society in Redcliff by a Protestant is another indication of it.

HELPING SETTLEMENT.

An increased demand by the public for information regarding land settlement is reported by the Department of the Interior at Ottawa. This increased interest is attributed partly to the fact that Crown lands in Western Canada within fifteen miles of a railway, which heretofore have been reserved for returned men, become available for civilian entry on the 1st of May.

Besides Crown lands that may be available, it is estimated that there are about 200,000 quarter-sections of privately owned lands lying idle in the Prairie Provinces, most of them within easy reach of railways. The same condition applies, though in a lesser degree, to the older provinces of Canada. This condition is not, however, due to lack of value in the land itself—as the contrary and particularly in the Prairie provinces, much of this idle land is rich virgin soil—for when one considers Canada's vast land area and its comparatively small population it is at once apparent that a large portion of the area in private ownership must be unoccupied and available for purchase at reasonable prices.

In their endeavor to find a suitable location prospective homesteaders or purchasers will find of marked value the dual service which the Department of the Interior through its Natural Resources Intelligence Branch is now in a position to render.

Information About Lands for Sale

In order to provide prospective purchasers with information as to where suitable land may be obtained in the most settled districts, the Department of the Interior, through its Natural Resources Intelligence Branch, has compiled and published particulars regarding unoccupied privately owned farm lands for sale in this locality. The object of this publication is to assist in the settlement and development of lands now lying idle.

Important details are given concerning each farm such as the area fit for cultivation, nature of soil, distance from railway, price and terms of payment. This information should be of great use to prospective purchasers or those interested in inducing settlers to locate in this vicinity.

The list for the district which is known as No. 12, may be obtained free of charge upon application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

Experimental Work in Agriculture

Suggestions have been made in Parliament that the splendid work performed by the Experimental Farm system of the Dominion is not as widely understood and appreciated as it should be. Personal of the report for the year ending March 31, 1920, prepared by the Director, Mr. E. S. Archibald, will reveal for reading results and a remarkably wide range of activities. In this report details and particular results of the operations carried on by all the divisions, branches, sub-stations and illustration stations, scattered from one end of the Dominion to the other. In fact from this report can be formed an excellent idea of the prospects and probabilities of agriculture of practically every variety in Canada. Nor is it only in this direction that the valuable results that are being established are being revealed. Since the war, expansion has been possible in nearly every branch; the number of illustration stations has been increased, and progress owing to increased facilities, has been most marked. At the Central Farm at Ottawa, a modernized dairy building has been added, herds of cattle have been strengthened, and extended work in poultry improvement and disease eradication has been entered upon. In short, release from emergency work necessitated by the war has made possible new and renewed effort in every line of agriculture of national and domestic importance.

SASKATCHEWAN REPORT

ON WHEAT POOL.

A voluntary scheme of wheat marketing, operated by a specially created organization directly responsible to the former patrons, provided sufficient demand for voluntary pooling exists, and that the government is desirous of acceding to that demand, is the recommendation contained in the report on wheat marketing prepared by James Stewart and F. W. Hildesley, of the Canada Wheat Board, at the request of the Saskatchewan Government.

Wet gas ascending like smoke from the drill hole has been struck by the Imperial Oil Company's number two well south of Pincher Creek.

Membership Drive For the Red Cross

The first membership campaign to be launched by the Canadian Red Cross Society on a large scale will be held in Manitoba, Saskatchewan and Alberta between June 6 and 11. It is being launched in the firm belief that Canadian as a body will respond to the appeal, and will join in the work being carried on by the society.

The drive will be made in accordance with the resolution adopted unanimously by the first general council of the League of Red Cross Societies held in Geneva, Switzerland, on May 5, 1919. The resolution requested each of the national societies to conduct an annual campaign for members, as far as practicable at the same time.

Red Cross officials state that this is in no sense a drive for funds. The membership fee of \$1.00 which each new member will contribute, will do little more than pay the expenses incurred in the campaign. The society's object is to enroll as many as possible, interest them in the work of the Red Cross and thus spread propaganda regarding national health and safety more rapidly and with greater effect.

SHIP FROZEN MEAT

NOW FROM ALBERTA
An initial shipment of 1,340,000 pounds of frozen meat has gone forward from here to Liverpool. Owing to the embargo on the importation of the cattle in England, the export cattle trade to that country has been seriously handicapped, but if this shipment proves a success, there will in all probability be a permanent rise built up.

GOOD WOOL CLIP

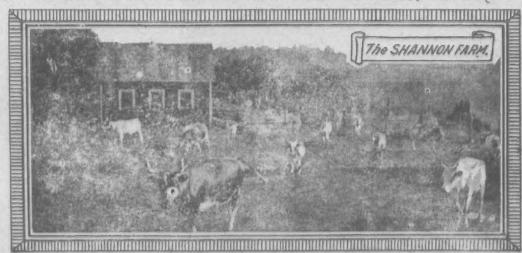

REPORTED IN ALBERTA
The wool clip of Alberta this year is estimated at 2,500,000 pounds. This is practically the same quantity as clipped last year. With 8,000,000 pounds as a probable total of the clip in Manitoba, Saskatchewan and British Columbia, Western Canada will have about 5,000,000 pounds of wool to dispose of this year. It is hoped to sell the total clip in the home market.

It is reported that plans are under way in Vancouver for the construction of elevators for the storage of grain in connection with the preparations for the shipment of grain via the Panama Canal route to Europe this fall. Arrivals from the United Kingdom, it is claimed, are in the effect that imports are keenly interested in the new route.

"It Pays to Advertise." Fourth Evening of Chautauqua.

Pure-Bred Stock at Cloverdale, B.C.

The South side of the Fraser River valley is known as the best dairy farming district in British Columbia. Some of this most fertile land has been farmed for thirty and forty years and is still producing 100 bushels of oats to the acre. The specialty is purebred Ayrshire. They have a herd of eighty-four and forty purebred cows and calves, and so famous have they become for this breed that their stock is continually being shipped all over British Columbia, in the States and across the Pacific to Hong Kong. One of their cows, "Grandview Rose," whose sire came straight from Scotland, is expected to be the best Ayrshire in the British Empire and has a wonderful record of 21,416 lbs. milk and 1,085 lbs. butter fat in the milk and 1,085 lbs. butter fat in the milk. The Shannon farm is a little of having \$1,000 for a bull calf such is their great regard for pedigree and breeding to type. All the milking is done by an electric machine and the cows are in modern in every detail even to the use of a litter-carrier. As in all dairy farms in B.C. the cattle are milked throughout the winter. The milk is all bottled right on the farm, after passing through a scientific milking process, and 70 percent of it are obtained every morning, chiefly to Vancouver, in the U. S. W.

ANOTHER GERMAN CRIMINAL SENTENCED

Capt. Mueller, the second German officer to be placed on trial charged with criminal acts during the war was sentenced to six months imprisonment. He was tried on the charge of having practiced cruelty on prisoners at the Flay-le-Hartel prison camp in the Alsace Department of France.

YOUR CANDIDATE

NELSON SPENCER

Always a True Friend to the People of this District

He has Helped Us All. His Efforts Brought Relief in 1914 and 1915

HE WENT OVER THE TOP WITH THE BOYS

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton

Summer 1875.

By O-G-MAS-ES (Little Chief).

(Copyrighted)

On looking over my last article it may be that my readers will be left with the impression that Chief Factor Archie McDonald was a tyrannical man, but this was by no means the case. You, however, must understand that Hudson's Bay officers in charge of districts at this time had practically absolute powers. Truly, Canada had taken over the country, but her jurisdiction for all practical purposes ended when you left Fort Garry (now Winnipeg), and in the great realm of the Northwest the H. B. Co. ruled supreme. They had jurisdiction of their head posts, with handcuffs and leg irons for unruly servants, or law-breaking Indians, and they used them when required. Give absolute authority to any man and he is apt to become more or less of a despot. Shortly after leaving the Hudson's Bay service, I remember being at this time in poor health and circumstances, Mr. Archie McDonald was exceedingly kind and helped me to get a start on my own account.

To resume our trip across the plains, the rate of progress daily was governed by that of the loaded carts, whose squeal from wooden axles could be heard for miles, in spite of constant applications of grease. From twenty to thirty miles daily was a fair average and one must know that the ponies subsisted only on grass, as carts were unrun in the winter. Consequently the men would start with the carts very early in the morning, while the horseboys and my clerk would start breakfast much later and easily catch up with the train for dinner. Ahead of the party rode Chief Guide Jones, generally with me on his horse, thithering to limbo all the plainsman's lore possible, and sometimes other clerks were with him. Armed guards had to be set nightly, and the horses watched very carefully, for grazing was rich, and no doubt our large brigade was spoiled upon from time to time by scouting Indians. The prairie was covered with fresh buffalo dung and the ground was so soft that a large herd was just to the south of us. In fact a few old bulls were killed by our riders, but the company would not allow any hunting for fear of annoying or injuring the horses, and this much to the disgust of my young men who were all anxious to shoot a buffalo.

About the tenth day out we met a small war party of Saukees coming in from the great plains to the west, en route to Fort Qu'Appelle. They met us all marching on foot, with drums beating, and the warriors zigged out in scarlet cloth, paint and feathers galloping. They were the usual shash hands and a smoke, then small presents were handed to each of them. By Mr. McDonald, and in return, we received a welcome supply of tender young buffalo meat just as the company was about to cross the river and camp. They had few carts, only a few, that is the lodge poles, and of them I had on each side of a pony a parchment taced across behind the horse and on the robes, dressed buffalo leather, dried meat and pemican were piled, even their large spit careen were laid in the same way. With the exception of a violent windstorm that made things lively for a while, nothing of importance happened until we reached the south branch of the Saskatchewan, and here we had some fun. In the evening, the men being on duty. We made raft of the large wooden cart wheels, over which buffalo parchments were laced

Uncle Sam's Fountain Pen

Kept Busy Requiring Resolution to Re-Examine Home Bore.

Every now and then the United States has to find a note to some nation telling it where to head in or get off. Uncle Sam's ink kept busy with his fountain pen calculating his objection to, entangling alliances and his resolution to be an exclusive home boy. At the same time, the writer is violating the speed limit in grinding out notes sending forth our national views on mundane matters. For a country determined to keep out of a League of Nations we are behaving in rather eccentric fashion. We want everybody's business, but we don't want our name in the directory. We want the privilege of chiding, but not the responsibility of action. —From the Los Angeles Times.

Ninety-one thousand snakes and more than 10,000 wild birds of various kinds were killed in India last year.

Farm Laborers Wanted

Hundreds of Experienced Men Could Be Placed at Once.

There is an increased demand for experienced farm laborers in Southern Saskatchewan. Swift Current requires about 45 regular men, while the whole district would be placed at Moose Jaw and other points. The average wage being offered is \$90 and board. In the province of Saskatchewan during the past week there were 1,156 farm vacancies registered, and 1,062 men and women who applied for work, 1,049 were placed.

Locates New Coal Field.

A new coal field has been located at a place called on the west coast of Vancouver Island. It is the announced intention of the discoverers, J. McDonald and his associates, to develop this new field.

Cocoa is more digestible if allowed to ferment and released after the globules of fat have been removed.

Leader of Progressive Agriculture

Mr. F. H. H. Auld, Deputy Minister of Agriculture for Saskatchewan.

Mr. F. H. H. Auld, Deputy Minister of Agriculture for Saskatchewan.

Awarded To Finland

League of Nations Commission Hands Over Aland Islands.

The commission appointed by the League of Nations, composed of Mr. E. K. Fox, former United States ambassador to Constantinople, Mr. Calander, former president of the Swiss Confederation, and Baron Beyens, of Belgium, to examine the question of the Aland Islands, in the Baltic, and whether they should belong to Finland or Sweden, have decided in favor of the former, but with the reservation that the islands shall be given certain concessions.

The effect of the report is that Aland shall have home rule, Finnish protection and nationality. There are guarantees as to education, language, and it is recommended that Aland shall have the right to put up three names for governor of the islands, and the governor shall be elected from this list. If Finland does not consent to this report, the solution of the matter be left to a plebiscite, which it is pointed out would result in a vote favorable to union with Sweden.

Canada One Of Many Creditors

Rumunian Owes Millions to Britain, France and U.S.

Canada has little chance of adding to her revenue this year by the payment of the account of Rumania. This is the opinion of treasury circles in London, and this view is confirmed by Sir George Paish, the eminent financial authority.

Today Rumania owes Great Britain twenty million pounds. She owes the United States twenty-five million dollars, and France, thirty million francs. Canada, therefore, is one of many creditors, and while she cannot expect to take precedence over any other nation yet, she has an equal prospect of them in having her debt finally liquidated.

British Warships Sold For Junk

Reported That Britain Was Selling to Help Japan.

Some 200 destroyers, 25 battleships and 50 light cruisers have disappeared from the British navy list during recent months. The British admiralty has issued an explanatory announcement saying the vessels were all sold to British firms for breaking up. This statement was the result of reports circulated in America that Great Britain was making extensive sales of warcraft to South American governments for eventual transfer to Japan.

The First Hoe

Primitive Man Used Limb of Tree for Weeding Work.

The hoe is probably one of the oldest of agricultural implements. When primitive man found a well-firmed limb of a tree with a sharp crook he had a hoe for the cutting, and with such hooks as these that the Cro-Magnon planted their large fields of corn, and prepared the soil for the plowing. There probably was not much "alling-up" done and less weed cutting. There was a hoe, for effort was made to keep the weeds down until the corn was high enough to shade the ground. Mowing was soon finished, and the crop was left to itself until the ears were filling, when the children were sent out to the field to scare the birds away. Farmers today know how dangerous a flock of blackbirds will do in a cornfield, and what harm have been the strength of the flocks when nearly the whole continent was a wilderness.

Big Campaign Planned For Oil Fields

Many Drilling Outlets Will Operate in Alberta.

Before the middle of the summer has been reached, it is estimated that more than fifty modern oil drilling outlets will be operating at various points in Alberta in the big campaign that is being planned for this year by the Imperial Oil Co. Inc. other large concerns to test the potential oil fields of the province.

The campaign is now developing within the last month or two in Calgary which will put several very large oil companies in the field with the most modern class of drilling rigs, in addition to the Imperial Oil Company, which expects to have nearly twenty rigs working in various parts of the province and the district north of the Athabasca.

Some of these operations will be in the Fischer Creek district where very favorable oil showings have been uncovered. Other operations will be in the district south of Lethbridge, near the Montana border, where already one or two wells have been brought in. Other rigs are to be put into the Nitrofit field near the district, east of Edmonton, has also attracted very great attention.

What Makes Britain Great

People Always "Carry On" In Spite Of Difficulties.

The way in which the British Government is dealing with the very heavy financial obligations entailed by the war is an example to the nations. The statement made by Arthur Chamberlain, late chancellor of the exchequer, enables one to realize to some extent what the mother country is accomplishing. Last year the national debt was reduced from £7,829,000,000 to £7,573,000,000—a reduction, though small, of more than a billion and a quarter dollars. In the foreign debt alone the reduction was £119,150,000. The debt to the United States was cut down by £75,000,000 and £210,500,000 was taken off the debt owed to Canada. The debts owing to other countries were wiped out. In the last two years the nation's external debt has been reduced £20,000,000, or about a billion dollars.

This has been accomplished by means of very heavy taxation, and in spite of the fact that the government found it necessary to face an extraordinary amount of current expenditure.

It is not likely that this year's record will be so favorable, for the industrial troubles and the depression in trade will diminish the country's financial resources. But we may be sure that the British people will "carry on" in spite of all the difficulties in the last year. The counter—From the Hamilton Herald.

Remedy For Diseased Potatoes

Select Healthy Seed and Plant on New Ground.

Potatoes become affected with scab through a spore which first attacks the young sprouts, then the stems, a brownish ring, this being followed by the formation of small warts, which in due time increase in size and grow into each other, enveloping the tuber. It really does not hurt the potato for table use except that a greater amount of the potato must be peeled away before using.

The remedy is to burn the diseased tubers, and in the selecting of "seed" the healthy tubers should be well sprinkled with flowers of sulphur, care being taken to dust it into the eyes of the potatoes. We would also advise care in the use of sacks, which are very liable to disintegrate; do not use them. Never plant on the same ground where you have grown diseased potatoes on.

U.S. Farmers Looking For Land.

Considerable areas of land belonging to the Canadian Pacific Railway have been lying idle in the last spring and are being broken up. One deal of importance was that in which J. J. Lee, of Montreal, secured 1,000 acres, upon which a 60 penny lease was given, and the man engaged in mining. Many United States farmers are in the country looking for improved holdings and raw lands.

"Hercules" Lechner, a Milwaukee carpenter, sometimes uses a hammer, but uses a thing as a 60 penny lease he drives through a 2½ inch plank with his bare hands.

The word nicotine is derived from the name of Jean Nicot, French ambassador to Portugal, who brought tobacco to the tobacco plant to Catherine de Medici.

Canadian Delegates Will Attend Dairy Congress

In Chicago Next Year

Plan For Making Ireland Independent

Lord Hugh Cecil Suggests Member of Royal Family for King.

Lord Hugh Cecil, member of the Privy Council of Great Britain, who is the guest of Lord Londonderry's family in Mount Stewart, County Down, has suggested a scheme by which Ireland, its king to be a member of the Windsor family, probably the Prince of Wales, to be appointed by Great Britain for that purpose.

Under the scheme there would be two small Parliaments, one to be located in Belfast and the other in Dublin, and in addition, a "House of Estates" of 100 members. Complete fiscal autonomy would be given to Ireland, but there would be a large imposed for Imperial defence in proportion to the sum contributed by Great Britain for that purpose.

Ireland, under the plan, would be allowed to have an army but no more than the event of the war of Great Britain could suggest the Irish constitution. Irishmen in the colonies would have the right to elect a further they should be subjects of the Irish or British King. If favorably received by the Irish Government, the scheme would be submitted to a constituent assembly.

Some of the Southern Irish leaders, including John Dillon, to whom the scheme was outlined, described it as "preposterous."

The significance of Lord Hugh's proposal comes from the fact that he is the guest of the Londonderry family, the greatest number of which was Lord Castlereagh, to whom, more than to anybody else, the breaking up of Henry Grattan's Irish Parliament and the passing of the Act of Union in 1801 were due.

British Locomotive Contracts Awarded

Firm Received Order In Face of Foreign Competition.

A short time ago it was recorded that a leading British firm had received orders for a large number of locomotives for railways in Russia. This contract alone involves a number of locomotives for some years, and since it has been awarded the same firm has secured an order for two hundred locomotives for the Belgian State Railways. A striking feature of this new order is that it is the first in the last few years for foreign competition. Success was achieved on account not only of the excellent price quoted, but in view of the fact that the British locomotives for efficiency and reliability.

Company Buys Standing Timber.

Announcement has been made that the Canadian Robert Dollar Company has bought a large tract of standing timber on Vancouver Island, for approximately half a million dollars. This makes a total of four hundred and fifteen million feet of timber bought by this company in the past year.

Plane Great Time Saver.

The advantage of the use of airplanes in fisheries was illustrated recently when the chief inspector of the Dominion Fisheries and his party flew from Vancouver to inspect the fisheries at Anderson and Kneass Lake, on Vancouver Island, accomplishing the 470 miles in a few hours, whereas it had previously taken about five days.

Feels As Burns Did.

Germany has appealed in vain to the city of the British, and her advisers to the Washington Government have been unavailing. Poor Heine must begin to feel as Burns did when he was subjected to his discipline: "I felt that they were resolved" "on my oppression."—Hamilton Herald.

Chinese Wear Ulsters.

Ulster overcoats have become popular with the Chinese in Manchuria. The wealthier class of Chinese also wear long outer garments of silk, which are easily damaged by rain or snow, and are often worn over the fur clothing, protects the expensive silk clothing underneath.—Yusik's Companion.

Apples For Old Country.

About 6,000 barrels of apples were recently shipped to London, England, from Halifax, N.S.

There is probably no branch of agriculture in which Canada has made more progress in recent years than dairying.

It is apparent that it will be afforded next year to let the world know how far this is the case, for in the country to be held in Chicago, Ill., the seventh international dairy congress at which there will be present officially nominated representatives from thirty to fifty different countries. At the sixth congress, held at Bern, Switzerland, in 1914, Mr. J. A. Roddick, Dominion Dairy and Cold Storage Commissioner, was Canada's representative, among a total of 80 delegates representing twenty-five countries or states. The congresses are organized under the auspices of the International Dairy Federation, of which any person interested in dairying, corporation or association, can become a member on payment of the annual fee of \$10, at present in twenty francs. Papers are read at the congresses and the reports are published in English, French and other languages. Already Mr. Roddick is engaged, by authority of the Dominion minister of agriculture, in preparing Canada's report on dairying at next year's congress in Chicago, and a committee is being formed for the questions to be discussed and prepared in connection with the congress. A pamphlet will also be prepared and distributed to all delegates, and a list of the dairy industry in this country. It is further proposed to establish in connection with the congress a bureau of information at which facts will be set forth regarding not only dairying in Canada, but agriculture generally, and the various sources of the country. In addition, leaders will be circulated suggesting that the delegates who might like to visit Canada before returning home.

The World's Highest Bridge

Span in Colorado Will Eclipse All Suspension Bridges.

The United States is to have the world's highest bridge. It is to be a suspension foot and burro bridge and will span the gateway to Snow Boulder Canyon at Eldorado Springs. The bridge will be 1,000 feet high and will be erected at a point still indicated by a swinging wire between two canyons. The bridge will be 1,000 feet high and will be erected at a point still indicated by a swinging wire between two canyons. The bridge will be 1,000 feet high and will be erected at a point still indicated by a swinging wire between two canyons.

No Halfway About The Scotch

Very Decided Once He Makes Up His Mind.

No half-and-half about the Scotch character. What he hates, he hates; what he likes, he likes. And he lets you know so right high bridge in the world. Other famous suspension bridges that will be eclipsed by the Colorado bridge are the Forth at Queensferry, the Crumlin railway viaduct in South Wales, the London, Niagara Falls and Brooklyn Bridges.

Claim Discovery.

Discovery of a very subtle substance for bone black, or bone char, the material used in decolorizing and refining sugar and various liquids, sprays and oils, is announced by the Atlas Powder Company, Washington. Scientists have searched for 60 years for such a substance, it is said.

W. N. O. 1269

ITEMS OF LOCAL INTEREST

A political meeting in the interests of Nelson Spencer is advertised for tonight (Thursday) at Bowell.

W. H. Halder, who has been visiting friends in Minneapolis for two weeks, returned home last Sunday.

J. Hilgert, of Vauxhall, spent last week end in town visiting his sister, Mrs. Simmons.

Mr. and Mrs. H. J. Simon and son are spending a few days in Edmonton visiting friends.

Leo Lydiatt, manager of the glass plant here, has gone east on business for the company.

Chocolate Bars, 6 for 25c, at Blundell's. See big display of 25c specialties in our window.

The regular meeting of the Box Springs U.F.O. will be held in their hall on Wednesday, June 15th. A full meeting is desired.

A heavy frost last Friday night did considerable damage to garden stalks. The crops, however, were not hurt to any extent.

Sir James Outram, a prominent Orangeman of this province, was married in Montreal last week to Miss Balfour.

Jan Bellis, an old resident of this district, but who has been living at New Westminster for the past few years, arrived in town last Saturday to visit his son Fred.

The Redcliff football team goes to Medicine Hat tonight to play a league game with the Callins of that city. Come along and cheer the boys to victory.

David E. Parry, of the Flin's Lake district, was found dead on the trail last Tuesday morning. It is supposed he was thrown from his wagon, the wheels of which passed over his head.

Albert Lemon, formerly of the Bow. all district, returned last week from the west, where he had been spending the winter. Mr. Lemon is just on a visit and expects to return east in a few days.

All who have occasion to use the town streets will be glad to see that an effort is being made to put Broadway in better shape. The centre is being graded and rounded up so as to provide a better system of drainage.

The great success of the Unionist party in the elections in Ireland last week is a most encouraging sign. With this first step in Home Rule over, the progress and development of the new parliament will be watched with keen interest throughout the Empire.

Representatives of the Box Springs U.F.O. were in town last Saturday arranging for material to build an addition to their hall at that point. The addition is to consist of a kitchen and cloak room. When this work is completed the local will have one of the best halls in the district.

C. F. Jamieson, of Lethbridge, who is well known here, will address a public meeting in the Empire theatre, Medicine Hat, tonight (Thursday), in the interest of Nelson Spencer. Mr. Spencer and other speakers will also be present to address the meeting.

Mr. and Mrs. Phillips wish to thank the people of Redcliff for their kindness during the time Mr. Phillips was incapacitated as a result of his accident. They would especially thank the members of the football club and also Mr. Stratton and Mr. Everett for their trouble.

The crops in this district never looked better and healthier than they do at present according to reports being brought in. Although cut worms are reported to be doing some damage in other parts of the province, they have not made their appearance around here yet. A little Hattfield would do considerable good any day now.

Owing to the difficulty in making satisfactory arrangements for our weekly supply of newspaper, the Review has been going to its readers for the past few weeks in reduced form. We are now pleased to be able to announce that arrangements for this time we will have our usual eight pages again, and hope to run this size continuously for the future.

I. B. Kinick, President of the University of British Columbia, spent Saturday in town, the guest of his parents and brother H. O. Kinick. After

presiding at the Winnipeg conference of the Canadian Society of Technical Agriculturists, Pres. Kinick will leave for Britain to attend the conference of Universities of the Empire, subsequently visiting the northern countries of the continent.

A political meeting in the interests of Nelson Spencer was held in the U.F.A. hall at Box Springs last evening. There was a fair attendance of farmers of the district, and all appeared to be interested in the discussion of the many questions which are now before the electors of this district. Chas. Provot, of Medicine Hat, and E. L. Stone were the speakers of the evening.

Some good work has already been done on the country roads of this district. The main road to Box Springs has been excellently graded. Although at present it is a little heavy, the traffic should soon pack it down and make it one of the best roads in the district. Work is also being carried on the main trails west of town, under the supervision of road master J. Bishop.

Miss Herald, who is here in connection with the Chautauqua, entertained the school children on Monday evening of this week. Entertaining amusing and helpful stories were told to the smaller children while games of various kinds were introduced for the benefit of the older ones. All the school children were present, and judging from the cheering and laughter they were well entertained. Miss Herald says she enjoyed the evening as much as the children did.

H. O. Kinick, principal of the school here, has been requested by the Department of Education to be one of the teachers at the provincial summer school to be held in Edmonton this summer. These schools are attended by teachers throughout the province who are desirous of receiving special instruction in any branch of school work in which they feel they need help. Mr. Kinick has been asked to take charge of one of the most important branches of this work. This appointment is another feather in Mr. Kinick's cap.

IMMIGRATION TO CANADA INCREASING

During the month of March, 1921, a total of 11,000 immigrants entered Canada, of whom 4,865 were British, 4,292 from the United States and 1,843 from other countries. The total immigration for the fiscal year ending March 31st, is 148,477, 74,565 being from the British Isles, 48,000 from the United States and 25,913 from other countries. This is an increase of 27 per cent over the previous fiscal year.

FALL WHEAT CROP GOOD IN ALBERTA

The area estimated to be sown to fall wheat for 1921 was 792,000, of which 758,000 acres had been sown, 38,800 acres in Alberta, and 14,900 acres in British Columbia according to the first crop report of the season issued by the Dominion Bureau of Statistics. The proportion winter wheat is reported as eleven per cent in Alberta; in British Columbia the crop was practically unharmed.

Premier Meighen leaves next week for London to attend the conference of British premiers.

Safe and Convenient When Remitting Money

There is frequent necessity in business and personal affairs for remitting money by mail. The safest and easiest medium for this purpose are Bank Drafts and Money Orders.

You can secure these at any branch of the Imperial Bank—drafts for the larger amounts, and Bank Money Orders up to fifty dollars.

Full particulars from Canadian Pacific Railway Ticket Agents, or

J. E. PROCTOR,
District Passenger Agent, Calgary.

Talk of a General Provincial Election

There is considerable speculation just now as to the prospects of a general provincial election in Alberta in the near future. One rumor is to the effect that there will be another session of the legislature in the early fall and that an election will take place immediately after.

Premier Stewart says, however, that no plans have been made or are being considered in connection with an election. Despite this there appears to be signs of activities in connection with organization work among the members of all parties concerned, and in some cases conventions are being arranged for. In any case there is sure to be a general provincial election within the next year and a half. There will also be a general dominion election which that time.

If these animals are not claimed on or before Monday, June 13th, they will be sold by me at two o'clock in the afternoon at the town pound, for the purpose of defraying expenses.
R. BIVERTT,
Poundkeeper.

IN MEMORIAM.

In loving memory of our dear son and brother, Samuel Daman Miller, who was killed in the battle of Ypres, June 2nd, 1916.

A sleep in Jesus! blessed sleep,
From which none ever wakes to weep.
A calm and undisturbed repose,
Unbroken by the last of foes.
A sleep in Jesus! far from thee,
Thy kindred and thy grave may be,
But mine is still a blessed sleep,
From which none ever wakes to weep.
Inserted by his mother, father, sisters and brothers.
